

WE ARE OUTDOOR HEATING SPECIALISTS

FIRE TABLE SO HOT IT'S COOL!

New to the Australian market – the ultimate in outdoor entertainment

- State of the art technology combining both infrared and radiant heat - a genuine outdoor heater.
- Emits heat beneath the table top but creates atmosphere with open flame in the middle of the table top.
- Can dine up to 8 people, or 12 standing comfortably

A cool option for hot summers!

- For the summer, why not add a stainless ice bucket that drops into the pit, keeping drinks and food cool on ice while entertaining.

DOUBLE SKINNED

The double skinned exterior allows no heat transfer and with no hot spots it's safe to touch!
