Light up your night

Enjoy the ambience well into the night

A bold statement, that has no limits - Casual or formal, indoors or out, set the mood, experience the magic of LED.

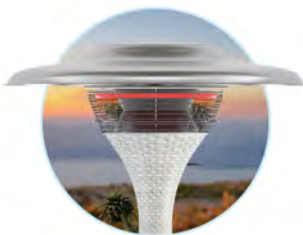

LED Lights - more energy efficient than incandescent lighting, have a longer life cycle and are more eco-friendly.

High durability and reduced maintenance.

LIGHT FEATURES

- LED light kit 6500K, lumen 1000
- LED Power 10W
- Life span 50,000 hours

Warm your Winter

Enjoy sun-like warmth on cooler winter days and nights

The heating lamp of the Sole warms you during the winter months. The infrared element gently heats people and objects below providing comfort, similar to the warmth of sunshine. And, at 1500W it not only looks good, it's economical to run.

The Sombrero canopy provides more effective heating by dissipating and directing rising heat downwards. This surrounds persons at the table with soft, consistent and pleasant warmth.

ELECTRIC RADIANT HEATER

- 1.5kW, 6.5 amp
- 50 hz, 230 volt
- 360° heat element and heat reflector
- Low glow infrared element
- Heat area outdoors up to 4 sq.m
